G100 Glass Door Bracket

The G100 Glass Door Bracket is a specialized mounting accessory designed for installing bolt action locks on glass surfaces. It provides a secure, drill-free attachment point for frameless glass door security systems.

- **Application:** Specifically designed for use with **Glass Doors Only**.
- **Compatibility:** Engineered to pair exclusively with the **B100 Bolt Action Lock**.
- **Glass Suitability:** Ideal for frameless glass with a thickness of **9mm to 12mm**.
- **Material:** Constructed from high-quality **Stainless Steel** for long-term durability and corrosion resistance.
- **Holding Mechanism:** Features a combination of a **rubber plate and steel plate** to ensure a strong, non-slip grip on the glass without damaging the surface.
- **Dimensions:** Compact design measuring **90mm (L) x 27mm (W) x 40mm (H)**.
- **Weight:** Lightweight assembly at approximately **300g**.
